# **WOLFTANK ROVERETA**

► **BRAND MANUAL**

## BRAND ESSENCE

### Environmental Awareness

Restoring and protecting our planet's original and healthy state

### Honesty

Being transparent, able to be trusted and truthful

### Responsibility

With the brand's commitment, with our environment, with our context and with ourselves

### Sustainability

Offering products and services without using resources which cannot be replaced or harm the environment

### Enthusiasm

Facing every project, every new day with positivity, commitment and passion in what we do

### Growth

Constant development by respecting environment at the same time

**OUR LOGO**

## LOGO

## GENERAL

Our logo is a so called combined word brand composed by the following elements:

- key visual in form of the letter “O”
- our name in bold and
- the subline in semi-bold

The complete logo is held in our corporate colors. The wording and letters in our corporate green, and the customised “O” as our key visual in both corporate colors.

## LOGO

## SIZING

A logo is usually one of the first impressions a company can give and therefore amongst the most valuable assets of a corporate design.

In order to ensure that the logo is properly displayed, a so called safe zone is required when using the logo.

The defined safe zone is equally the size of the customised “O” within the word brand.

When using the Woltank Group brand or any other Corporate Design element it is mandatory to request the approval from the Groups' Communication team.

**communication@woltank.com**

### MINIMUM SIZE

The minimum width of the logo is 35mm (132px).

Including the protection zone that equals 44mm (166px) width.

## LOGO

## DONT'S

The WolfTank Group logo is the most known element of the Corporate Design, therefore it is of utmost importance to use it precisely in a correct and respectful matter. If you plan to use the WolfTank Group logo

or in general the brand, in any case it is required to get the approval of the Groups' communication team (contact [communication@wolftank.com](mailto:communication@wolftank.com)). The usage of the WolfTank Group logo is without exceptions only allowed in

the correct formats and variations. No element shall be changed or modified on your on behalf. Skewing, clipping, coloring, twisting or any other modification is strictly forbidden.

Distortion / Tilt / Reflection

Visual effects behind / around the logo

Recoloring elements

Displacing or resizing

**NO GO!**

Placing the colored logo on colored backgrounds or photos

## LOGO

## PRODUCT BRANDS

In addition to the regional brands, we have a number of prominent product brands whose value and recognizability we want to maintain.

The strong product brands must be placed together with the Woltank brand. It is necessary to mention the Woltank brand appropriately, while the strong product brand can be positioned near the right content or images.

Follow the above conditions and make sure that there is a clearly integrated and respectful appearance.

## ICON

The icon of the Woltank Group composed and recognised as key visual with the initial letter “W” inside.

We define the icon as secondary option, in case the primary logo is not suitable the icon can be used.

## FONTS

### PROFESSIONAL PRINT

For the professional print and online appearance of the Woltank Group we chose a combination between the modern Bahnschrift font for headers / titles and Source Sans Pro as support for the body text.

Text highlights are generally allowed if the highlights are based on our corporate colors. However, this should only be used in rare occasions.

And always keep in mind: **Think  
before you print.**

# STATIONARY

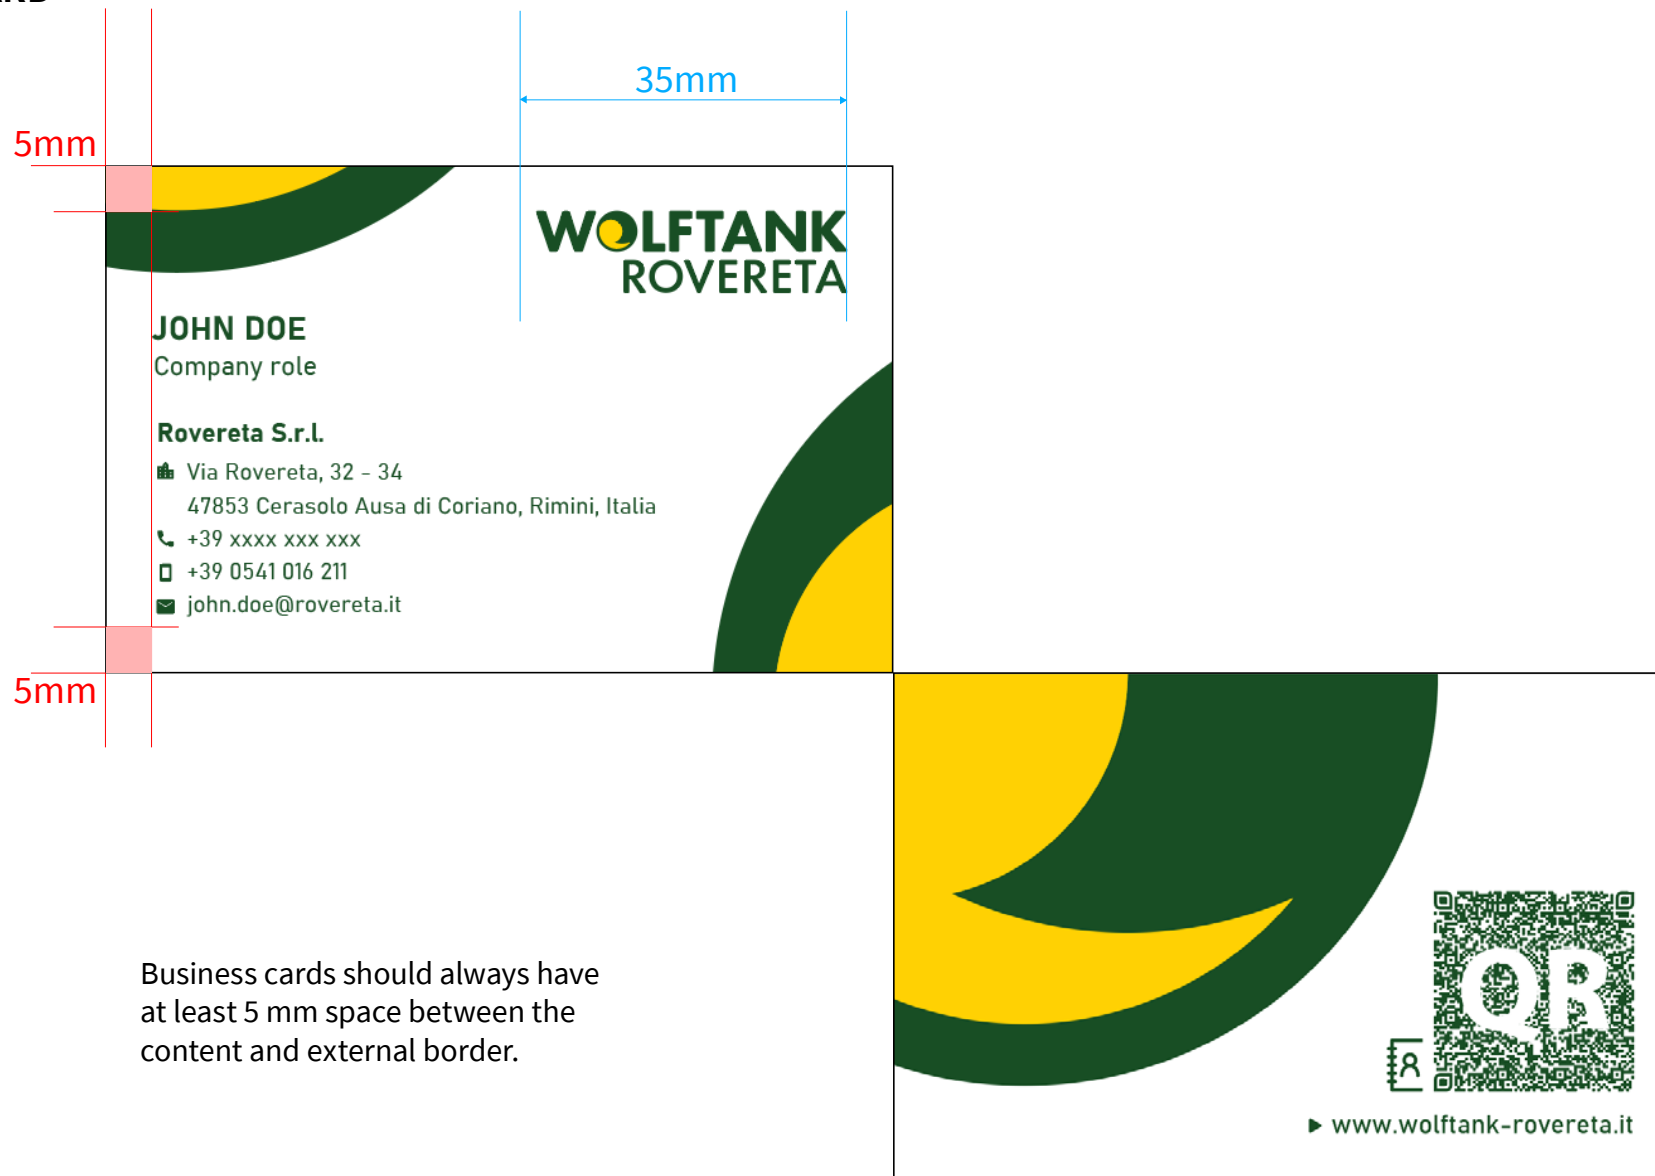

STATIONARY

## STATIONARY

### BUSINESS CARD

## STATIONARY

### BRANDING KIT

The overall corporate design for profession print consists of our key visual oversized on folders and business cards in its original colors.

Generally we prefer to use our corporate logo with white or neutral colors.

These elements are prepared for professional print:

- Envelopes
- Documents
- Folders
- Business cards

# PHOTOGRAPHY

## PHOTOGRAPHY

Our photography aims to **capture** people and moments, rather than using them.

**NATURAL RATHER THAN ARTIFICIAL.**

**AVOID PHOTOGRAPHY THAT FEELS STAGED.**

**GENUINE SPONTANEITY AND VITALITY.**

## PHOTOGRAPHY

### **CAPTURE EMOTIONS. DELIVER VALUES. AUTHENTIC.**

Images should follow the deep values we are focused on, but also consider the technical area in which we operate. Showcase the benefits we give to our customers. For example, if you want to show a dispenser, give it some momentum and vitality.

## PHOTOGRAPHY

### CAPTURING REAL LIFE.

#### Good

Spontaneous and real moments where subjects are not obviously aware to be captured.

#### Bad

This photographs don't work very well as the composition seems extremely staged.

## PHOTOGRAPHY

### CAPTURING BENEFITS.

#### Good

Deliver our product and its benefits clearly and give it some momentum.

#### Bad

Obviously composed or unreal images.

## PHOTOGRAPHY

### INTERVIEWS

#### Good

Capture them from the front with enough space for additional edits on the right. Keep it real and authentic. Smile.

#### Bad

These sceneries don't work very well for us not being left sided and out of frame.

**OTHERS**

## QR CODES

QR codes are generally a great choice for a quick mobile access of various information.

We prefer the usage of equally designed QR codes and therefore also support our core branding.

For the best result we suggest a minimum size of 35mm width and a safe zone of at least 8mm.

Find all available pre-generated QR codes online within our media and utility area.
